

Loch Lomond & The Trossachs National Park Core Paths Plan Review Questionnaire

Your details

To submit your comments you must consent to us processing your personal information under data protection legislation

I consent to the Loch Lomond & The Trossachs Park Authority processing my personal information in accordance with the Data Protection Act 2018; specifically its storage and use by members of staff working on the Core Paths Plan Review 2018, who may contact me regarding my response or to update me on the review process. In the event of an unresolved objection, my personal information may be forwarded to the Scottish Government Reporters Unit, who may use it to contact me regarding my response.

Further information

The Park Authority will publish anonymised consultation responses online after the consultation period has ended.

We will retain your personal information for the duration of the review which will end when the revised plan is adopted. Remember, you have the right to withdraw your consent at any time, by emailing accessteam@lochlomond-trossachs.org or by sending a request in writing to the National Park Authority at 20 Carrochan Road, Balloch, G83 8EG.

If you have any queries about your rights under data protection or about how we are using your personal data please email us at info@lochlomond-trossachs.org or call 01389 722600.

Our privacy policy can be found on our website: <https://www.lochlomond-trossachs.org/privacy-cookie-policy/>

Name

Karen Ramoo

Organisation (please only list if you are responding on behalf of the organisation as a body)

Scottish Land & Estates

First line of address

Stuart House, Eskmills, Mussleburgh

Postcode

EH21 7PB

Email or telephone number (this is to allow us to contact you with any queries)

karen.ramoo@scottishlandandestates.co.uk

Please note –you can submit your response online at www.lochlomond-trossachs.org
The paper version is intended for anyone who does not have access to the internet. The online tool allows you to view the paths in detail and to map any suggestions you may have.

Is the amended core paths network sufficient to give people reasonable access across the National Park area?

Yes No

You can provide a brief comment on the sufficiency below.

In our view the amended core path network is sufficient in providing reasonable access across the National Park, offering a variety of direct, safe and pleasant routes through the park for a variety of access takers at all skill levels. The provision of these paths will also assist in the management of access, particularly over agricultural land where issues can arise particularly in relation to dogs and livestock.

Would you like to comment on a specific:

Addition Removal Re-alignment

Please provide your comments below stating the reference of the route(s).
